NEW BUILDINGS AND ADDITIONS

Now Being Erected Here.—Fair Showing for This Season of the Year. Prospects Good for Future.

While there has not been as much building here this summer as in some previous years, yet quite a number of houses have been erected or are now in process of construction and the contractors are quite sanguine of steady increase of work as the season advances, some of them even now having several months' employment ahead on contracts not yet commenced.

All the carpenters and masons able and wanting work are finding employment either here or at Seabreeze and Daytona Beach, about fifty carpenters being engaged on the following new buildings and additions now in progress in this city:

D. D. Rogers—Addition to residence on North Beach street.

Mrs. Mary Wilder—Work on water tower and additional buildings in rear of residence on South Beach street.

C. M. Christy—Garage and additions to residence on North Ridge-wood avenue.

D. F. Randolph—Erection of a large residence on the north side of Second avenue.

J. W. Fulgham—Building on North Beach street for use as cigar factory.

C. C. Mellor—Winter residence on Ridgewood avenue, between Volusia avenue and Bay street.

Mrs. Wm. Wicking—Five-room bungalow cottage on Volusia avenue, between Ridgewood and railroad.

Dr. P. R. Bennett—Six-room dwelling on Orange avenue, west of Ridgewood.

W. T. Long—Residence on Daytona street.

M. M. Pellett—Residence on Bellevue avenue.

Graham Thompson—Alterations and additions to residence and adjoining cottage on Palmetto avenue and repairs on the Opera House block.

S. B. Green—Large garage and machine shop in rear of The Cleveland.

Electric Light Plant—Erection of large sheds in rear of this plant for the storage of coal.

Ivy Lane Inn—Extensive additions to this hotel on Ivy Lane and Palmetto avenue.

Some additions may have been overlooked or not have been mentioned because already completed, as for instance, an addition to Schmidt's Villa on North Beach street and similar improvements elsewhere, recently finished.

At Seabreeze and Daytona Beach a number of houses and beach cottages are under way, in addition to the improvements at the public school and The Clarendon and the erection of the Hotel Issena.

There is also some building in the colored section of Daytona, outside of the work on the large Industrial School building, making altogether a very respectable showing for this season of the year.

Passing of Notable Woman.

(Orlando Reporter-Star.)

With the death of Helen Wilmaus Post last week goes the power of the Faith Cure people in Florida. Mrs. Post and family have done much for Seabreeze, where they established headquarters for their new cult and converted a howling wilderness into a beautiful little city of palatial hotels, residences and fine streets.

Mrs. Post in her faith cure was no worse than patent medicine fakirs that are allowed to flourish and actually kill people while Mrs. Post's treatment if it did not cure at least did not kill. But she was subjected to persecutions from the law until she lost all of her possessions.

Col. Post, her husband, died some time ago, and Mrs. Post held out so long against the grim reaper by will power alone, has gone to a world of better thoughts. Her "Quest of Poverty" will keep her memory alive for many years and when it comes to looking at the question of life's burdens the faith cure for ills is not such a far cry from good sound logic.

LICENSE TAX IS EXPLAINED.

To All Merchants and Dealers Comptroller Croom Explains the Law For Guidance of Collectors.

The following letter of Comptroller Croom to the county collectors of the State in explanation of the license law passed by the last legislature will be of interest to a large number of our readers whose business operations may be affected by it.

Comptroller's Office, State of Florida Tallahassee, August 29, 1907.

To the Several Collectors of the State of Florida:—

Gentlemen: The guide to the license law is only intended as an index to the law, and in every case the tax collector should examine the law before deciding what amount of license to collect.

The act of 1907, chapter 5597 of the Laws of Florida, is a revision of the general license law of 1903, chapter 5105 of the Laws of Florida, and any provision in the act of 1903 is repealed by the act of 1907.

Special acts of the legislature fixing license taxes in particular cases, when not in conflict with the act of 1907, are in force, and licenses should be collected thereunder.

Each license issued under the law is limited to the particular business, profession or occupation for which it is taken out, i. e., a license to sell naphtha will not permit the sale of lubricating or illuminating oils, a license as green grocer and dealer in fresh fruits and nuts will not authorize the sale of other articles, such as cured ham, bacon, salt fish, etc., for which a merchant's license is required. A license as merchant will not authorize the holder thereof to sell any article for which a special license is required, without paying the amount of such tax. Yours very truly,

A. C. Croom, Comptroller.

It will be readily seen that the laws bears particularly hard on small dealers and will probably drive many of them out of business. It is rumored that the constitutionality of the law, or certain parts of it, may be tested in the courts.

Mind of Everett Canova Unbalanced.

Many people in Daytona will regret to read the following regarding Everett M. Canova, who was city editor of the Daily News a year ago last winter. The news contained in a Bartow dispatch to the Tampa Tribune is as follows:

"Being afflicted with what is apparently a light and temporary form of insanity, Everett M. Canova, the young editor of the Polk County Record, was this morning taken to the home of relatives at St. Augustine, being accompanied by Judge Boswell. It was not deemed necessary to arrest the young man, and make legal inquiry into his mental condition, and friends gladly sent him to his home in the hope that rest would bring about recovery.

Since assuming the management and editorship of the Record more than a year ago, Mr. Canova, who is hardly past his majority, has worked with great zeal and earnestness, and overwork is evidently the cause of his present condition.

"The young man has acted somewhat suspiciously for several days, but little attention was paid to his actions. At one o'clock Saturday morning, however, he went to the home of Judge C. A. Boswell, a stockholder in the Record, and awakened the household. Upon being questioned by Judge Boswell the young man could give no reason whatever for his visit at that hour of the night, which fact was taken to prove conclusively that he was unbalanced. He was taken care of until this morning, when he was taken to St. Augustine. Sincere regret is expressed at his condition."

†An intimate knowledge of the building interests of this locality will save you many annoyances, and perhaps extra costs. Let us advise with you. It costs you nothing.

Norman S. Dayton, Daytona.

FLORIDA DAY AT THE EXPOSITION.

Governor Broward and Staff and Many Other Florida Citizens To Attend. Interesting Program Prepared.

Hundreds of citizens of Florida, the land of flowers, will visit the Jamestown Exposition on the 24th, 25th and 26th of September to celebrate the Florida State Day and the special days of several cities. On the 24th, the citizens of Tampa and Ocala will celebrate, the 25th is Florida State Day, and the 26th is Jacksonville and St. Augustine Day. The railroads have made exceedingly low rates for the occasion and large crowds are expected to attend as great interest in the various celebrations is manifest.

The program for Florida Day includes addresses of welcome by President Tucker and Governor Swanson and responses by Governor Broward and other prominent citizens of Florida. This part of the program will be held in the Auditorium beginning at eleven o'clock in the morning. At five o'clock in the afternoon there will be a review of military troops by Governor Broward, Governor Swanson, President Tucker and others. From 8:30 to 11 p. m., there will be a reception in the Virginia Building by the Florida State Commission, to Governor Broward.

Special fireworks, illuminations and Warpath attractions will be features of Florida Day.

There will probably be several companies of the Florida State Militia in camp at the Exposition at this time and these will participate in the exercises of the celebration.

Florida has no State building, but her resources are advertised to a considerable extent in the department of railway exhibits, in the States' Exhibit Palace and in the Mines and Metallurgy buildings. Many of the Florida visitors will go to the Exposition several days in advance of Florida Day in order to be present at the celebration of Robert Fulton Memorial Day, September 23rd, when one of the grandest naval displays of vessels of every kind, will be made and speakers of national fame will deliver addresses.

A Pleasant Social Function.

The reception given last week by Mrs. Geo. H. Clark and Miss Evelyn, in honor of Mrs. Neville H. Clark, was a very enjoyable affair.

Notwithstanding the ominous date, Friday, the 13th, the day proved to be an ideal one and very few of the invited guests failed to appear, there being eighty or more ladies present, most of them young married people, but ranging from the friends and acquaintances of Miss Evelyn to those of Mrs. Clark.

The guests were given the freedom of the house and Mr. Neville's friends insisted on inspecting the young couple's entire suite of rooms, even to the kitchen.

The house was beautifully decorated, the parlor in white and dining room in pink. The front verandah was also made very attractive by the tasteful use of rugs and draperies and a profusion of flowers.

The walls of the parlor were covered with hibiscus and bamboo, a very striking combination, and on the center table was arranged a magnificent bouquet of La Marque roses, at least two feet in diameter and all from Mrs. Clark's own garden.

A delicious fruit punch and a variety of cakes were served. The center piece of the dining table was a beautiful pyramid of Dutchess roses.

Seabreeze and Daytona Beach were well represented in the gathering and the hours, from three to five, were the most pleasant of the day.

H. V. Bracey has a small but very promising fall garden at his residence on South Beach street. He is using turnips and snap beans and his pole beans and cucumber vines are as fine and thrifty as could be desired. The pole beans are replacing a spring planting from which was harvested 1000 quarts of beans and this off two rows, less than fifty feet in length.
